

MCL Broadband RFP Various Branches 2023-2024 Q&A

1. Will a Service Level Agreement for network performance be required from all bidders?

A Service Level Agreement will only be required from the winning bidder, not as part of the bid submission.

2. Is the Mesa County Library looking for a dedicated symmetrical internet service for the new library branch site?

Dedicated symmetrical internet service would be beneficial but Mesa County Library is looking for the most cost-effective option and we are not requiring it.
