

Furniture RFP - Addendum 02

Project Name: MCPLD-Mesa County Public Library, Clifton Branch Library
Wember Project Number: 2019.37
Issue Date: March 6, 2023
Purpose: Furniture RFP Addendum 02

Question 1	Is there an option to supply without providing installation or is that mandatory?
	Installation is required.
Question 2	AC09- Included in the drawing, but no spec page and not on bid tabulation form. Is this needed?
	AC09 is to be omitted by request of the Owner.
Question 3	SP01- Have been working with Colecraft on getting their quote for this area and some questions arose. During the design process between Colecraft and Ratio, laminate was the only material ever discussed for the body of the desk and their drawings and specs never reflected Veneer. Would just like to confirm that this should be veneer vs. laminate.
	Veneer.
Question 4	AC04 and AC07- Specified with wire management, but there is no grommet specified. Is the intention to put a computer on these tables?
	Yes; add a grommet cutout and cover to each of these pieces, to be located at the center back of the top surface.
Question 5	TB05- Specified with 4 power outlet strip. Is that 4 outlets for the entire 4 pod or per each individual surface?
	One outlet strip with surge protection per individual station.
Question 6	TB07- Not available in 30" Dia. Is 48" ok?
	Yes.

Question 7	CH11H- Please confirm this a series 1 not a series 2.
	Series 2 as indicated in spec text.
Question 8	CHO2A- Please confirm bracket finish.
	Powder PC05 Shale.
Question 9	CH17G- Tangerine not available please confirm finish.
	Citron 6332.
Question 10	ST05-Specs are missing please include
	Please see exhibit 2.2R.
Question 11	To use the integrated storage for the Migration SE HAT: 1H storage is the only option for extended height. If you want 1.5H storage, you must use a basic height desk.
	1H is acceptable.
Question 12	To use the integrated storage for the Migration SE HAT: 30"W storage not available for a 30"w (or 29"w) desk. It must be 36"W storage.
	Adjust as necessary to accommodate 36"W storage.
Question 13	Laminate modesty panel only available as HPL and does not have a scallop.
	HPL modesty panel is acceptable. Where scallop is not an available option, add one grommet cutout and cover.
Question 14	TS pedestal must be 22"D to have cushion top. Do you want to keep it 19"D without the cushion or change to 22"?
	Change to 22" to have cushion top.
Question 15	Can you please clarify the power needs for WS01.

	<p>Convenience outlet on top of the worksurface, then a power strip with surge protection as indicated in spec underneath. Cords from the convenience outlet, monitors, docking station will waterfall over the edge and between the gap in the top and the modesty to the underside of the table. Those items and the height adjustable table power will also be plugged into that power strip. The only cord that will need to go down the leg and be plugged in is the power strip (and possibly data cord). All excess cords should be placed in the basket. Here is an example diagram if needed:</p>  <p>32W Wire Basket installed centered, flush to table support rail, opens to rear</p> <p>Power Strip installed centered, flush to table support rail, facing forward</p>
Question 16	Are you able to send over the CAD file for the library so we can place furniture into the plans and make sure everything fits properly?
	CAD files will be provided to firms that are awarded the work.
